

## How to change your email or password:

1. log into your CAPA account.
2. go to the Members tab,
3. click on "*My account*",
4. click on "*account details*", and make your changes.
5. Make sure you click "*save changes*" after you have edited the fields.

You must use a unique email for each account. For example, if you use your personal email for your CAPA club login, you must use a different email for your own CAPA account.
