

The Gabriola Photography Club has been quite active since the holidays. Our biggest project is a district workshop that we are planning for a Saturday in April next year, 2021. We have been meeting with our CAPA district representatives, from Harbour City and Cowichan Valley. We are planning photography outings the day before and after the actual workshop, as well as guest speakers and a photo contest. I'm sure we will also try to fit in a pub night. Stay tuned for more details.

From February 21-April 8th, Laurie MacBride will be having a photo show at the Gabriola Medical Centre downstairs, 8:30 am – noon, Monday to Friday. Her show is themed The 100-Mile Photo Diet and illustrates that journeys within 100 miles of home can reward us with beauty, wild spaces, adventure and creative inspiration, without the need for passports, airports or much in the way of carbon emissions.

In addition, each month on our website [www.gabriolaphotoclub.ca](http://www.gabriolaphotoclub.ca) we post photos of the month as sent in by club members. Vicky Scott posted this beautiful image of a Black Hawk eagle from Central Panama.
