

Steve Loates

I was born in the UK I have spent most of my life in Canada, living in multiple locations around southern Ontario before moving to New Brunswick in 2021. I am married with three adult children, six grandchildren and our Boxer, Godfrey.

Photography was first introduced to me in my teens when my parents bought my first camera as a birthday gift, a Ricoh 35mm. As I began my adult life, building my career as an entrepreneur and starting a family I left photography for many years returning to it in 2008 at which time I purchased my first digital camera, the Nikon D70s.

During my time in Ontario, I was a member of the Latow Photography Guild in Burlington where I served on the board and since moving to the east coast, I have joined the St. Andrews Camera Club.

I love to travel and record the memories through my photography. My photographic interests include Landscapes, Cityscapes, Nature, Black and White and some Abstract. I also enjoy the challenge of post processing images utilizing both Lightroom and Photoshop.

I consider myself to be an avid student of photography, always looking for ways to improve my images.

You can find some of my images here.
